volzBand 5041

Applications

- Bandaging of cable sets
- Bandage in the veterinary field

Benefits

- Very high adhesive strength
- Flexible and pliable
- Free of harmful substances
- Good media resistance
- Hand-tearable

Storage Conditions

The Rolls should be stored in their packaging protected from light and at a temperature between 18°C to 24°C, with a relative humidity of 40% to 50%. When using an adhesive tape stored below 18°C, it is advisable to keep the tape at room temperature for 24 hours to preserve its characteristics. The best results are obtained at a processing temperature between 20° & 24°C.
