

Technical Product Data Sheet

volzBand 5041

volzBand 5041 is made from a premium viscose fabric combined with a particularly strong, synthetic rubber-based, pressure-sensitive adhesive. It is specifically intended for taping wire harnesses. It is also used for bandaging in the veterinary field.

Nominal Values

Backing Uncoated Cloth, Viscose Cloth

Adhesive Type Synthetic Rubber

Total Thickness 0,300 mm, (± 0,020 mm)

> Color Black (04), Off-White (22)

Adhesion to Steel ≥ 12,50 N/25 mm (Stahl), ≥ 11,25 N/25 mm (Bandrücken)

Tensile Strength 200,00 N/25 mm

Elongation at Break ≥ 10%

Temperature Resistance -4°C to +105°C

> Length 50 m, (± 2%), other lengths upon request

9 mm, 15 mm, 19 mm, 25 mm, 30 mm, 38 mm, 50 mm, (± 1 mm), other Width

widths upon request

Storage Life The material can be stored at room temperature for at least 12 months.

Effective 30 August 2023

Technical Product Data Sheet

volzBand 5041

Applications

- Bandaging of cable sets
- Bandage in the veterinary field

Benefits

- Very high adhesive strength
- Flexible and pliable
- Free of harmful substances
- Good media resistance
- Hand-tearable

Storage Conditions

The Rolls should be stored in their packaging protected from light and at a temperature between 18°C to 24°C, with a relative humidity of 40% to 50%. When using an adhesive tape stored below 18°C, it is advisable to keep the tape at room temperature for 24 hours to preserve its characteristics. The best results are obtained at a processing temperature between 20° & 24°C.
