

volzDispenser 161-6080

volzDispenser 161-6080 is a special manual bench dispenser for processing adhesive tapes. The product can be fixed on tables or other objects. The desired length will be placed on the cutting bar and by moving the smooth blade to the side, the tape is cut off. The dispenser can take one wide or two narrow rolls. The blade can be exchanged or fastened with the supplied tool.
