

Technical Product Data Sheet

volzDispenser 161-6120

volzDispenser 161-6120 is an industrial tape dispenser with electric motor for cutting high-adhesion adhesive tapes, metal foils, cover foils, tubes and other materials to length. Robust stainless steel housing with integrated roller suspension for solid use in industrial applications. Efficient guillotine cut with finger protection and switch-off contact. The device is optionally expandable and can be adapted to special applications.

Nominal Values

Length Calibration | Control Panel

Power Consumption 100 W

Tape Width 20 mm – 120 mm

Tape Length 20 mm – 999 mm

Max. Roll Diameter Innendurchmesser 75 mm (optional anpassbar), Außendurchmesser bis zu

300 mm (optional anpassbar)

Type of Rolls High-adhesion adhesive tapes, metal foils, cover foils, tubes and other

materials

Required Space (LxWxH) 270 mm x 325 mm x 335 mm

Weight 12,00 kg

Mode Automatic

Type Strip Dispenser

Effective 18 March 2024

We provide the technical data of our products to the best of our knowledge, but without obligation. Due to the wide range of material and environmental influences, we recommend a suitability test on original products prior to use. Please also note the standard processing guidelines for adhesive tapes, which we will gladly send you upon request.

Technical Product Data Sheet

volzDispenser 161-6120

Applications

- For cutting high-adhesion adhesive tapes, metal foils, cover foils, tubes and other materials to length
- Intended for use in industrial applications
- As an option, the device can be expanded and adapted to special applications

Benefits

- Robust stainless steel housing with integrated roller suspension
- Efficient guillotine cut
- With finger guard and switch-off contact
- Optionally expandable
