## volzFix 9064F

### Applications

- Perfect Exhibition tape

### Benefits

- Can be removed from all surfaces without leaving residue, even after weeks
- Plasticiser resistant Limited aging and temperature resistance

### Storage Conditions

The Rolls should be stored in their packaging protected from light and at a temperature between 15°C to 24°C, with a relative humidity of 50% +/- 30%. When using an adhesive tape stored below 15°C, it is advisable to keep the tape at room temperature for 24 hours to preserve its characteristics.
