

## volzFix V4023 PV1

volzFix V4023 PV1 is a double-sided adhesive tape consisting of a cotton-cloth backing and a transparent, differentiated strong / weak, hot-melt rubber adhesive. The product is very suitable as a trade show installation tape. The high mass application allows bonding on rough and textured surfaces and shows a high initial tack.

<b>Effective</b>	09 December 2021

## volzFix V4023 PV1

### Applications

- Perfect Exhibition tape

### Benefits

- Hand tearable
- Flexible carrier
- Excellent tack on the open side
- Residue-free on the closed side

### Storage Conditions

The Rolls should be stored in their packaging protected from light and at a temperature between 19°C to 21°C, with a relative humidity of 50%. When using an adhesive tape stored below 19°C, it is advisable to keep the tape at room temperature for 24 hours to preserve its characteristics.
