### Applications

- Masking tape for the automotive industry

### Benefits

- Excellent adhesion to all surfaces
- Easy application on curved profiles and irregular surfaces
- Easy removal without adhesive residue
- Heat resistant up to 80°C (1 hour)
- Compatible with solvent-based and most water-based paints

### Storage Conditions

The Rolls should be stored in their packaging protected from light and at a temperature between 15°C to 24°C, with a relative humidity of 50% +/- 30%. When using an adhesive tape stored below 15°C, it is advisable to keep the tape at room temperature for 24 hours to preserve its characteristics.
