

Technical Product Data Sheet

volzMasking 3016U

volzMasking 3016U is a masking tape suitable for curing at 80°C (1 hour) in automotive repair shops, especially car body shops.

Nominal Values

Backing Saturated Crepe Paper

Backing Thickness 0,090 mm

> **Adhesive Type** Natural rubber and Hydrocarbon Resins

Total Thickness 0,132 mm

> Ivory (00), other colors upon request Color

Adhesion to Steel 6,75 N/25 mm

Tensile Strength 85,00 N/25 mm

Elongation at Break 10%

Temperature Resistance +80°C (1 h)

> Length 50 m, other lengths upon request

Width 19 mm, 25 mm, 50 mm, other widths upon request

The Rolls should be stored in their packaging protected from light and at a **Storage Life**

> temperature between 15°C to 24°C, with a relative humidity of 50% +/- 30%. When using an adhesive tape stored below 15°C, it is advisable to keep the

tape at room temperature for 24 hours to preserve its characteristics.

Effective 24 March 2025

Applications

Masking tape for the automotive industry

Benefits

- Excellent adhesion to all surfaces
- Easy application on curved profiles and irregular surfaces
- Easy removal without adhesive residue
- Heat resistant up to 80°C (1 hour)
- · Compatible with solvent-based and most water-based paints

Storage Conditions

The material can be stored at room temperature for at least 12 months.
